

PHOENIX, ARIZONA – (Disclosure & News Service – August 23, 2021) – PetroSun, Inc (OTC PINK: PSUD) It is with deep sadness that the Company reports the passing of John Franklin Templin II, Ph.D. on August 19, 2021. Dr. Templin is survived by his wife Melony, three children, six siblings, nine grandchildren and many, many friends.

Johnny was the drill-site geologist on what would become the Holbrook Basin helium discovery well for PetroSun more than twenty-five years ago. This well placed PetroSun on the path to understanding helium reservoirs within the Holbrook Basin and the Four Corners region, decades before the current helium exploration activity in the Holbrook Basin. Dr. Templin was instrumental with PetroSun's early success and his continued geological support as a friend.

To his children John III, Melissa and Megan, and his nine grandchildren; should you ever want to know the unbelievable real stories, I knew Johnny for about 58 years and there are many, many great memories to share ... just don't ask me about the UFO we saw on the discovery well in June 1996. We swore each other to secrecy.

As stated in his obituary, Johnny would often ask people, "Do you know what I love about you?" The answer for decades was always "everything." You will be missed, but never forgotten Dr. Templin.
